1. SCOPE

1.1 This document to address the UCR policy and guidelines in relation to the eligibility and usage of the User Computing Resources for Bursa Malaysia.

1.2 This document make reference to UCR Procedures, where the UCR Procedures dictate the primarily details specification of the hardware, software and technical requirements.

2. GLOSSARY

Terms	Definition
User Computing Resources ("UCR")	Desktop Computer, Laptop Computer, Media Tablet, Tablet PC, Laser Printer, Smart Phone, Software
Media Tablet	iPad, Samsung Galaxy Tab, and any other major tablet brand
Personal Computer ("PC") (End User Devices)	i) Desktop Computer ii) Laptop / Notebook Computer iii) PC Tablet iv) Media Tablet
Laptop Computer	Laptop / Notebook Computer
PC Tablet	Portable PC that is a hybrid between a tablet (Think Pad) and Laptop Computer.
Smart Phone	iPhone IOS, Android, Symbian, Blackberry OS and any other major smartphone brands
Mobile Device	Laptop, Media Tablet and Smart Phone
Hardware	Desktop Computer, Laptop Computer, Laser Printer,
Software	All software installed / used in the PC
EOL	End of Life
MC	Management Committee
GT	Group Technology
SOPs	Standard Operating Procedures
Laptop Users	Users who are primarily requires to move around or mobile during office hours for meetings, discussions, presentation and require Laptop Computer to perform their function while on the move. **By default, all employee entitlement is Laptop Computer except those identified as Desktop Users.**
Desktop Users	Users who are desk-bound due to their job function particularly restricted application or system monitoring, helpdesk, security or any other functions identified to be desk-bound.

Terms	Definition
Desktop Applications	Approved software application that comes pre-installed with the PCs. The software complies with Standard Desktop Application in Section 6 – "*Standard Desktop Application*" in the UCR Procedure.
Business Applications	All the approved software or client applications due to specific project requirements/ initiatives that need to install to the identified end users to enable them to access the application/ software to perform their daily functions/ routines as in Section 7 – "*Business Application*" in the UCR Procedure
Non-standard application / software	List of software/ application which does not comply with the Desktop Applications and Business Applications.
Computing Facilities	Wireless services, LAN, Internet Services, printing services, desktop and business applications
External Users	Visitors, vendors, contractors, or strategic partners
BYOD	"Bring Your Own Device" covering Mobile Devices that owned by employee
LAN	Local Area Network within Bursa Malaysia premise.
BMISP and BMISS	Bursa Malaysia's Information Security Policy ("BMISP") and Bursa Malaysia's Information Security Standard ("BMISS")
ITOS	IT Operation Services of GT
Application	Application of GT
IT Infrastructure	IT Infrastructure of GT
ITGS	IT Governance & Standards of GT
End User Services Team (EUST)	Team from Desktop Support from IT Infrastructure managing the UCR resources
Identity and Access Management (IAM)	Team from Identity and Access Management section that manages the access to the computing facilities

3. REFERENCES

The following documents are referenced in this document.

3.1 Bursa Malaysia User Computing Resources Procedure

3.2 Bursa Malaysia Information Security Policy (BMISP) and Standard (BMISS)

3.3 Bursa Malaysia Employee Information Security Handbook

3.4 Bursa Malaysia Code of Ethics

3.5 Bursa Malaysia Information Management Policy
3.6 Guidelines on Handling of Conflict of Interest
3.7 Corporate Authority Manual
3.8 Disposal of Fixed Asset in Fixed Asset Manual
3.9 Purchasing Manual of Corporate Services

4. DOCUMENT STRUCTURE

The User Computing Resources Policy and Guidelines covers seven (7) major areas as below:

4.1 General – covers the general procedure in terms of usage of the User Computing Resources.
4.2 Requisition - defines the purchase procedure for new PC and related software.
4.3 Technical – covers the technical requirements with regards to the procedure for User Computing Resources.
4.4 Support Services – covers the support hours, support coverage and expected Service Level commitment.
4.5 Refresh/ Upgrade - covers the proposed company-wide refresh cycle for the PC and the software.
4.6 Replacement– defines the procedure to replace the User Computing Resources before company-wide refresh.
4.7 Disposal & Write-Off – defines the procedure to dispose and write-off the PC and software in accordance to Bursa Malaysia's Fixed Asset Manual.

In addition, the policy and guidelines shall be in-line with Bursa Malaysia Information Security Policy and Standard (BMISP and BMISS), Guidelines on Handling of Conflict of Interest ("COI"), and Corporate Authority Manual.

5. OBJECTIVES

The objectives of the document are as follows:

5.1 To provide clarity on the responsibilities, terms and conditions for the utilization of the User Computing Resources.
5.2 To specify the eligibility requirement for the User Computing Resources.
5.3 To establish the policy and guidelines to refresh the User Computing Resources.
5.4 To provide guidelines to procure the PC and software for the User Computing Resources.
5.5 To outline the support services provided by GT with regards to User Computing Resources
5.6 To specify the policy and guidelines to dispose and write-off the User Computing Resources.

6. INTENDED AUDIENCE

6.1 Board of Directors, employees of Bursa Malaysia and its subsidiaries (collectively referred to as "employee(s)") who is eligible for the identified User Computing Resources.

6.2 Bursa Malaysia employees who are designated to verify, approve and ascertain the utilization of these User Computing Resources.

6.3 The Approving Authority for the Requisition of the identified User Computing Resources.

6.4 External Users that uses the Bursa's Computing Facilities

This policy and guidelines is applicable to all the intended audience as specified above.

7. GENERAL

7.1 Entitlement of User Computing Resources

The table below defines the entitlement for employees of Bursa Malaysia regarding User Computing Resources:

Roles	Desktop Computer[1]	Laptop Computer[2] / Tablet PC[3]	Media Tablet[4]	Monitor[5] / Printer[6]
1. Board of Directors	Not Applicable ("NA")	NA	• One (1) unit iPad Media Tablet. • Mobile data plan and monthly charges as per the mobile phones policy.	NA
2. Chairman and CEO	One (1) standard Desktop Computer	One (1) unit Laptop Computer and/or One (1) unit Tablet PC with docking station	and/or • One (1) unit iPad Media Tablet. • Mobile data plan and monthly charges as per the mobile phones policy.	One (1) unit printer, if required.
3. Management Committee / Director	NA	One (1) unit Laptop Computer or One (1) unit Tablet PC with docking station	NA	One (1) unit monitor for Laptop.
4. Senior and Middle Management (VP – SEVP)	NA	and/or One (1) unit Laptop Computer or One (1) unit Tablet PC	NA	One (1) unit standard Monitor upon approval.
5. Laptop User (Default – Junior Management AVP and below)	NA	One (1) unit Laptop Computer	NA	One (1) unit standard Monitor upon approval.
6. Desktop User (Identified job function as defined in Section 2 of the UCRPG)	One (1) standard Desktop Computer.	NA	NA	NA

Note:

1 Desktop computer comes with standard accessories i.e. Monitor 24" display, wireless keyboard and mouse.
2 Laptop Computers comes with standard accessories i.e. external wireless mouse, cable lock, laptop bag, power adapter, HDMI projector connector, LAN port connector and stylus pen.
3 Tablet PC comes with Bluetooth mouse, sleeve, power adaptor, detachable keypad, stylus pen.
4 Media Tablet comes with the Apple iPad, iPad cover, stylus, SIMM to support data plan.
5 Monitor terminal with 24" display screen unit with HDMI display cable.
6 Printer is standalone multi-purpose desk-jet printer for use to print the specific

7.2 All employee is entitled for a Laptop Computer except those employees who are desk-bound such as clerical, operations, monitoring, security, or restricted application (BTS2, MSS, etc) employees who are identified by the respective heads.

7.3 Employee shall be responsible for the usage and upkeep of the User Computing Resources in-line with relevant Bursa Malaysia Policies which includes but not limited to:

7.3.1 Taking all necessary precautionary measures to safeguard the information that they create, receive or control in the facilities that they use.

7.3.2 Complying with this policy and guidelines and the supporting information security standards and procedures.

7.3.3 Promptly report all security incidents to the relevant parties and authorities to ensure that appropriate actions are taken.

7.3.4 To housekeep their e-mails and data regularly by deleting unwanted e-mails or data, it will reduce the storage usage and improve the performance.

7.4 In the event there is a breach, employee is subjected to penalties due to violation of the relevant Bursa Malaysia Policies shall result in disciplinary action that include but not be limited to either:

7.4.1 civil and/or criminal prosecution;

7.4.2 termination of employment without notice;

7.4.3 downgrading;

7.4.4 suspension from work without pay for a period in accordance to Human Resource Operational' s Manual

7.4.5 termination of employment, in accordance with the guidelines on handling any misconduct of the Employee Handbook;

7.4.6 any other action that deem appropriate by the company.

7.5 EUST shall assist to perform the assessment on the non-compliance or violation.

7.6 IAM with advice from IT Security shall issue the violation notification for the non-compliance to the guidelines to the employee and Head of Department. If necessary, a copy will be forwarded to GHR for further action.

7.7 Employee shall protect the PC with the password or secured Personal Identification Number ("PIN") to secure Bursa Malaysia's data or information in-case the mobile device is missing or theft.

7.8 Employee is responsible to report the missing mobile device that contains Bursa Malaysia's data or information to the EUST.

7.9 IAM with advice from Human Resource and EUST reserve the right to wipe-off the user profile and the data in the central server once the missing or stolen case has been reported accordingly.

7.10 EUST reserve the right to request for non-work-related data stored in the User Computing Resources including but not limited to music, personal pictures, games and third-party software to be removed if it is hampering the function of the mobile device and the ability of the employee to perform his/her job function effectively.

8. REQUISITION

8.1 This Requisition Guidelines is aimed to:

8.1.1 Ensure the requests adhere to the procurement policy – Purchasing Manual of Corporate Services.

8.1.2 Ensure Bursa Malaysia obtain better support service and best value from vendors when purchasing the required items for User Computing Resources.

8.2 The Requisition request covers the following:

8.2.1 Device/ hardware purchase – covering the device for User Computing Resources and the related hardware components including maintenance services.

8.2.2 Software Purchase – covering the purchase for Desktop Application and Business Application to be installed to the User Computing Resources including subscription and licenses.

8.3 Prior to any requisition initiation for item 7.1, employee or requesting division shall provide the requirements for the purchase to EUST via Enterprise Service Management ("ESM") System. Refer to the Section 10 – "PC Software & Hardware Installation / Upgrade Request Form in ESM" in the UCR Procedure.

8.4 EUST shall carry out the necessary technical assessment based on the requirements and to provide the necessary technical recommendation.

8.5 For any standard requests to purchase item 7.1, EUST should follow the standard as stated in Section 5 – "Minimum Hardware Specification" and Section 6 – "Standard Desktop Application" in the UCR Procedure.

8.6 Any variation to the requisition from item 7.1, employee or Requesting Division is required to obtain the approval from the Director, GT and subject to Approving Authority as stated in clause 14.1. This is to cover the "Special Request" for the MacBook or non-Windows hardware support and purchase.

8.7 The procurement shall follow the procurement policy as stated in the Purchasing Manual of Corporate Services. As such, the employee shall submit the Purchase Requisition Form to request for the purchase of the device and software for User Computing Resources.

8.8 Any non-compliance to the Requisition guidelines, GT reserves the right to reject the requisition request from employee or Requesting Division.

9. TECHNICAL

9.1 The objective of this Technical Procedure is to ensure the standard practice; consistent platform and access are being applied to the User Computing Resources.

9.2 The minimum hardware specifications for the User Computing Resources as listed in Section 5 – "Minimum Hardware Specification" in the UCR Procedure.

9.3 Only approved software/ application shall be installed to the Bursa Malaysia's PCs as listed in Section 6 – "Standard Desktop Application" and Section 7 – "Business Application" in the UCR Procedure.

9.4 For non-standard application/ software require to be installed to the PCs, the System Owner/ Requesting Division shall perform the following:

9.4.1 Obtain approval to purchase the software following the Approving Authority as stated in item 14.4.

9.4.2 Obtain clearance from Desktop team with concurrence from IT Security to install the application/ software to PCs.

9.4.3 To formally request for the application/ software to be installed and included in the Approved List via ESM. Refer to the Section 10 – "PC Software & Hardware Installation / Upgrade Request Form" in ESM in the UCR Procedure.

9.4.4 The System Owner/ Requesting Division shall be responsible for the user's functionalities of the said software. The installation and configuration will be done by EUST.

9.5 In-line with Bursa Malaysia's power sustainability requirement, employee to adhere to the following:

9.5.1 Full power saving will be switched-on within the User Computing Resources Operating System;

9.5.2 Tools to manage power use such as wake up on LAN shall be enabled by default;

9.5.3 PCs shall be powered down daily before employee leaves the office;

9.5.4 If any software upgrade or software patches to be applied, EUST shall forward the notification to request employee to leave their PC switch ON and running on the affected date and time.

9.6 Employee who need to use advanced features of programs which requires higher capacity and processing power of PC, EUST will evaluate the request on case to case basis

9.7 Only approved employee shall be allowed to have the Virtual Desktop Infrastructure ("VDI") and/or Virtual Private Network ("VPN") access to Bursa Malaysia's internal network.

9.8 IAM shall be responsible to provide the credential to access Bursa Malaysia's internal network and Internet.

9.9 The internal LAN and/or WiFi access shall only be granted to the employee with Mobile Devices that owned by Bursa Malaysia for operational and business activities of the company only.

9.10 All the access to the Bursa Malaysia's internal LAN by employee from PCs shall be defined and controlled via Active Directory ("AD").

9.11 GT shall not be responsible for the backup and restoration of employee's data residing in the employee's User Computing Resources.

9.12 Employee shall keep their critical document in the shared folder in Microsoft SharePoint Online. The data in Microsoft SharePoint online is being backup regularly by Microsoft.

9.13 Employee shall keep their archival document in the Microsoft One Drive. The Microsoft One Drive data is being backup regularly by Microsoft.

9.14 For employee provided with a new PC or replacement PC, it is a responsibility of the employee to backup and restore his/ her personal data the new/ replacement device.

9.15 For non-standard software that is not used for business related shall not be approved for purchase. IT Security shall provide the necessary feedback for such request.

9.16 All external storage devices, e.g. USB drive, shall be disabled at default, the enabling of the external storage devices shall be granted on request basis.

9.17 The Crowdstrike EPP/EDR Next-Gen Antivirus solution shall be installed in the all Bursa owned devices that access to Bursa Malaysia information.

10. SUPPORT SERVICES

10.1 Support Methodology

10.1.1 EUST shall provide the full support with regards to User Computing Services which covers:

a) Initial installation and setup

b) Customization to the User Computing Resources configuration

c) Upgrades (as needed)

d) Diagnosis and correction of reported problems

10.1.2 The support hours is based on business normal working hours from 8:45am to 5:30pm, Monday through Friday. If the users start work at 8am, they still can contact customer services for assistance.

10.1.3 Employee or Requesting Division that requires support outside the business hours shall request the approval from Head of IT Infrastructure. EUST will respond either by phone, by email, or in person within 24 hours.

10.1.4 Support requests will be prioritized according to urgency and number of users affected.

10.1.5 If the computer will be out of working order for longer than five days, a temporary replacement will be provided.

10.1.6 If the remote support is required by EUST team to resolve employee's issue, the employee shall provide permission for EUST to access his/ her device remotely.

10.1.7 EUST shall only attend to the issues pertaining to User Computing Resources that are logged into the Enterprise Service Management ("ESM") System.

10.2 Support coverage

10.2.1 The support services provided by EUST with regards to the device/ hardware and software for User Computing Resources are as follows:

Item	In Scope	Out of scope
Device/ Hardware/ standalone printer	• Escalate the hardware problem to vendor for the replacement part. • Provide recommendation on the hardware configuration. • Recommend the hardware for disposal and submit the request to Admin of Corporate Service.	• Employees issued with PC are responsible for the devices as prescribed in the Letter of Undertaking.
Desktop Applications/ Software and Business Applications	• Installation, update and trouble-shooting. • Administration and the inventory of the standard software. • Provide 1st level support • Provide recommendation of the software specifications and configuration. • Upgrade carry out by respective system supports.	• Any issues caused by Operating Systems or other software which are not listed in the Approved List but is required by Users to support their operations job. •
Approved Non-standard software	• Installation, update and trouble-shooting. • Provide recommendation of the software specifications and configuration.	• Employee is accountable of the use of features and functions of non-standard software. • EUST may provide assistance based on case to case basis if the reported incident related to performance of the hardware.

Item	In Scope	Out of scope
Media tablet	• Provide recommendation on the specification and purchase. • Set-up and connectivity requirement	• To trouble-shoot any issue encountered on the device or caused by other non-standard software other than approved by Bursa Malaysia. • Change the replacement part for the faulty device to be dealt directly with system owner.
Email Synchronization	• Perform necessary configuration to allow for the integration to Exchange email from employee's device. Only one mobile device of the employee can be synchronized. • Provide 1st level support based on best effort basis.	• To troubleshoot email synchronization problems that may be caused by incompatibilities due to mobile software or other nonprofessional software installed on the mobile devices.
Multi-Function System (MFS) printers	• Installation of MFS driver to the PCs • configure scanner directory • Provide 1st level support	• User ID creation, user access control and keep track of user access list as these shall be supported by Administration of Corporate Services • Full support to MFS as it shall be provided by the MFS vendor through Administration of Corporate Services
WIFI Access	• Configuration of approved WIFI access.	• Configuration of WIFI access beyond Bursa Malaysia Premises. EUST to provide assistance based on case to case basis.
Cloud Software	• Installation and trouble-shooting the software. • Provide recommendation of the software specifications and configuration. • Top Secret, Confidential and Restricted Information that belongs Bursa Malaysia must NOT reside outside Bursa Malaysia premises without approval.	• Employee is responsible to resolve any issue caused by the software. EUST may provide assistance based on case to case basis.

10.2.2 The expected turn-around time to attend the above services requests is within 2 days upon approval.

11. REFRESH/ UPGRADE

11.1 Hardware/ Device

11.1.1 The hardware/ device shall be reviewed and assessed every three (3) years. Post review and assessment by EUST, the team shall propose if hardware/ device is recommended for refresh/replacement or continue to be maintainable.

11.1.2 Request for hardware upgrade by employee shall be evaluated by EUST to determine if they are appropriate and recommendations will be made. For example, a request for an upgrade in which cost would exceed the cost of new equipment would be discouraged.

11.1.3 The Bursa Malaysia's group wide replacement/ refresh of the User Computing Resources for PCs initiated by EUST and subjected to approval from the respective Approving Authority. Therefore, EUST shall plan and request for budget approval for every cycle period.

11.1.4 Refresh shall cover all PCs for Main site and Disaster Recovery Centre ("DRC").

11.2 Applications/ Software

11.2.1 Desktop Applications

11.2.1.1 As a guideline, the Bursa Malaysia's group wide version upgrade for Desktop Applications exercise shall be initiated following the refresh cycle above or date of last upgrade due to the following:

- The files or documents created by the software may be in a format no longer recognized by current software, making them un-sharable;
- The original media from which the software was installed may have been lost and can no longer be replaced;
- The software will no longer run under current computer operating systems.

11.2.1.2 However, if the software is no longer supported or reach EOL, then the version upgrade shall be considered before reaching EOL date to mitigate the risks on the following:

- No more patches available when the software reached EOL. Bursa Malaysia is exposed to security risks due to unknown virus or malware attack;
- No more technical support available on the software. This may cause delay to resolve any issue caused by the software.

11.2.1.3 In the event the employee requires the latest version of the Desktop Applications prior to the upgrade exercise, the request will be considered based on case by case basis with proper justification following the Approving Authority as section 14.4.

11.2.1.4 EUST shall plan and request for the budget Bursa Malaysia's group wide upgrade.

11.2.2 Business Applications

11.2.2.1 The System Owner/ Requesting Division is responsible to plan and to allocate the budget to refresh the Business Applications that running on Bursa owned device.

11.2.2.2 EUST shall provide the necessary technical recommendation for the upgrade or refresh.

11.2.3 Approved Non-Standard Software

11.2.3.1 The version upgrade exercise shall be based on the request by the System Owner/ Requesting Division.

11.2.3.2 System Owner/ Requesting Division to plan and request the budget for the upgrade.

11.2.3.3 EUST shall install the approved software/application requested by user. However, the software shall be supported by the software principle/provider to the System Owner/ Requesting Division on any issues related to the software/application functionalities.

12. REPLACEMENT

12.1 Request for a replacement of the User Computing Resources that belongs to Bursa Malaysia due to damage or theft shall be accompanied by proper supporting document to support the reason on the damage or theft. EUST shall then proceed to perform the investigation and provide the outcome and recommendation of the case.

12.2 User Computing Resources found to be damaged due to employee's negligence shall be subjected to penalty based on remaining Net Book Value ("NBV") of the equipment. If the equipment is no longer carrying any value i.e. NBV is zero, then the employee will be subjected to pay Bursa 10% from the equipment purchase price based on potential resale value.

12.3 Any request to change of hardware within the **5 years** period from the date of purchase to be considered based on a case to case basis.

12.4 Request for replacement which is not within the eligibility of the employee or upgrade of devices prior to the specified minimum period of usage of User Computing Resources and before the next refresh cycle shall follow the Approving Authority as per section 14 with proper supporting document.

12.5 EUST shall verify the budget availability for the replacement required. If there is no budget available, then the budget shall come from the Requesting Division.

12.6 All usable devices returned from the respective division following the replacement shall be placed under the custodian of EUST. EUST shall then responsible for further allocation or provide recommendation for donation or disposal.

12.7 For Media Tablet, in the event of any claim due to damage, repair or non-functionalities exceeding the warranty period, employee shall liaise with EUST.

12.8 For employee's BYOD, Bursa Malaysia is not responsible to replace the damaged or lost (due to theft) device as the device is not owned by Bursa Malaysia.

12.9 For standalone older printers, extensive repairs may not be justified, and replacement of the printer will be recommended based on case to case basis.

12.10 For any request to replace the device due to damage for the User Computing Resources before the refresh period would require Director of GT recommendation taking into consideration its NBV, repair and replacement cost.

13. DISPOSAL AND WRITE-OFF

13.1 EUST shall provide recommendation to write-off the device and software for User Computing Resources to Finance of Corporate Services when the device and software are no longer used by Bursa Malaysia.

13.2 In terms of damaged device, the recommendation to write-off is based on condition as stated in section 12.1.

13.3 The Administration of Corporate Services shall dispose off all non-usable hardware in accordance to the Disposal of Fixed Asset as stated in Fixed Asset Manual upon recommendation by the owner.

14. APPROVING AUTHORITY

14.1 All budgeted or non-budgeted purchases require prior approval of designated Approving Authority subject to authorization limit. Refer to Bursa Malaysia Corporate Authority Manual – Authority Matrix Part II – General Financial Limits, Section 2.4.2A – IT Capital Expenditure.

14.2 This manual shall abide to the latest Authority Manual. The latest Corporate Authority Manual shall supersede any approving authorities stated in this manual. However, as guidelines, refer to item 14.3 and item 14.4 on the Approving Authority for Hardware/ Devices and Software respectively.

14.3 Hardware/ Devices

14.3.1 The Approving Authority is based on the Approving Authority Limit as defined in Refer to Bursa Malaysia Corporate Authority Manual – Authority Matrix Part II – General Financial Limits, Section 2.4.2A – IT Capital Expenditure.

14.3.2 The request shall be raised by requesting department and approval by Approving Authority in 14.3.1.

14.4 Software

The Approving Authority for software purchase shall be subjected to the Approving Authority Limit as defined in the Authority Manual. The below shall be used as reference for any software purchase.

No.	Item	Request	Recommendation
1.	Company-wide Upgrade/ Purchase on the Desktop Applications/ Software in Section 6 – "Standard Desktop Application" in the UCR Procedure.	EUST	Head of Department and Director, GT
2.	Individual Purchase/ Upgrade on the Desktop Applications/ Software in Section 6 – "Standard Desktop Application" in the UCR Procedure.	Requesting Division	Head of Division from Requesting Division with final assessment and recommendation from IT Infrastructure
3.	Upgrade or purchase Business Applications/ Software in Section 7 – "Business Application" in the UCR Procedure.	Requesting Division	Head of Division/ System owner from the requesting Division with final assessment and recommendation from IT Infrastructure
4.	Non-standard software to support business functions. Section 8 – "Non-Standard Software" in the UCR Procedure.	Requesting Division	Head of Division/ System owner from the requesting Division with the final aassessment and recommendation IT Infrastructure with advice from IT Security.
5	Cloud applications are accessible from their devices for business functions.	Requesting Division	Head of Division/ System owner from the requesting Division with the final aassessment and recommendation IT Infrastructure with advice from IT Security.

14.5 User Computing Resources Procedure

14.5.1 The detail procedure on Technical requirement, hardware and software specification are stated in the "User Computing Resources Procedure" document.

14.5.2 Approving authority for UCR Policy & Guidelines shall cascaded to UCR Procedure.

14.5.3 GT shall be the owner the UCR Procedure and authorized to make the changes from time to time to the UCR procedure due to changes to technical matters and related process. The changes are to be approved by Director, GT to take into effect.

15. TERMINATION OF EMPLOYMENT

15.1 All devices provided by Bursa Malaysia shall remain as assets of Bursa Malaysia. Employee shall be responsible as custodian of the device provided to him/ her for him/ her to perform his/ her duties.

15.2 The employee is required to surrender the device to EUST in good working order in the event of termination/ cessation of his/ her employment/ service/ office with Bursa Malaysia.

15.3 CEO shall have full discretion to decide to give away the device as a souvenir to the BODs, MCs or employee as a contribution for their service with Bursa Malaysia.

15.4 In the event the returned device is found to be not working order, the employee will be required to compensate if the damage is due to employee's negligence. Refer to Section 12.2 for the damaged penalty.

15.5 EUST shall forward the Letter of Undertaking signed by the employee to Group Human Resource for onwards penalty claim from the said employee.

16. BRING YOUR OWN DEVICE (BYOD)

16.1 Employee with own Mobile Devices shall not be allowed to connect to Bursa Malaysia's internal network or systems and should only be allowed to access to the Bursa email, Bursa365 resources and Bursa internet. . The request shall be forwarded to Customer Service of GT for approval before the access can be granted with exception of the following:

16.1.1 Board of Directors, Chairman and Bursa Senior management's own Mobile Devices are NOT allowed to access to assigned WIFI SSID with the pre-defined access privilege in Section 9 – "Bursa Malaysia WIFI Access Matrix" in the UCR Procedure.

16.1.2 Other Bursa employee or vendors shall access to Guest WIFI only, these WIFI do not have access to any Bursa Malaysia internal network.
